RE: Boil Water Notice, Water Service Interruption

A water service interruption occurred this morning in Crescent Park due to a water main break. Repairs will be completed as soon as possible. As a precautionary measure, a Boil Water Notice is being issued to affected residences on Morris Ave

The Department of Environmental Protection has determined that a potential or actual threat to the quality of water being provided to you currently exists. Therefore, as a precaution, until further notice, bring tap water to a rolling boil for one minute and allow to cool before using for consumption such as drinking, ice cubes, washing fruits and vegetables, brushing teeth, and etc.

Remedial measures are being taken and bacterial samples will be taken as soon as the repair is completed. These samples will serve to confirm the water quality, but analysis will not be completed for 24 hours. The NJDEP Case number for your reference is #11-09-22-1208-13.

Please continue to boil the water until you are notified that the water quality is acceptable.

Thank you for your cooperation.
