

UNITED STATES OF AMERICA
BEFORE THE
FEDERAL REGULATORY COMMISSION

In the Matter of _____)
_____) Docket No. CP20-493
Tennessee Gas Pipeline Company, L.L.C.)

MOTION TO INTERVENE OF TOWNSHIP OF WEST MILFORD, NEW JERSEY

Pursuant to Rule 214 of the Rules of Practice and Procedure of the Federal Energy Regulatory Commission (“Commission”), the Township of West Milford (“Township”) hereby submits its motion to intervene in the instant proceeding, which was initiated by an application for a certificate of public convenience and necessity by Tennessee Gas Pipeline Company, L.L.C. (“Tennessee”) on June 30, 2020 (“Application”). In support of said motion, the Township states the following:

All communications with respect to this pleading and in connection with this proceeding should be addressed to counsel as follows:

Fred Semrau, Esq.
Dawn M. Sullivan, Esq,
Dorsey & Semrau
714 Main Street, PO Box 228

The Township of West Milford is a duly organized municipal corporation of the State of New Jersey.

The Township wishes to intervene as a party in connection with Tennessee’s East 300 Upgrade Project (“Project”), Docket No. CP20-493, a portion of which is sited in West Milford, New Jersey, because it has an interest in the Project based upon the significant environmental

implications and impacts of such a project, the impact upon the residents of West Milford and the impact upon the Township itself. The Township has immediate interests in regard to the Project and its participation in these proceedings is necessary to serve the public interest.

Specifically, the Township of West Milford seeks to intervene on the basis that the proposed Project contemplates Tennessee's purchase of property located within West Milford in order to construct "one new electric-driven compressor station, identified as CS 327, along Tennessee's existing 300 Line in the Township of West Milford in Passaic County, New Jersey." The Project also contemplates the installation of a new, 19,000 hp electric motor driven compressor unit, along with auxiliary facilities and taps to connect to the existing 300 Line with suction and discharge lines and appurtenances.

For all of these reasons, and others that will be presented in these proceedings, the Township of West Milford respectfully requests intervenor status in this matter as a party so that its interests, and the interests of the residents of West Milford, are appropriately represented and it has the opportunity to be heard on significant issues that affect it and its residents and taxpayers. Accordingly, the Township of West Milford requests that FERC designate it a party, with full rights and obligations to participate in conferences, discovery, testimony and cross-examination, and to be heard on all issues before the Commission.

WHEREFORE, for all of the foregoing, the Township of West Milford respectfully moves to intervene in this proceeding.

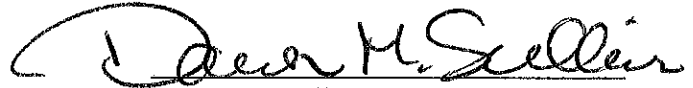

Respectfully submitted
TOWNSHIP OF WEST MILFORD

By: 
Dawn M. Sullivan

Dated: July 28, 2020

CERTIFICATE OF SERVICE

I, Dawn M. Sullivan, hereby certify that I have this day served the foregoing document upon each person on the official service list compiled by the Secretary.
