

## **Olde Milford Estates: TC Update**

**The West Milford Municipal Utilities Authority sent the residents of the Olde Milford Water System a notice in August 2011 in regards to a report that showed water samples taken were total Coliform positive.**

**To reassure any residents that may have received this letter, this was not an emergency. A boil water notice was not issued by the NJDEP. If it had been an emergency you would have been notified immediately.**

**This issue has since been corrected and testing samples that have been taken all currently meet drinking water standards.**

**If you have questions concerning this matter, you may contact the West Milford Municipal Utilities Authority at 973-506-7330 M-F 9am – 4pm.**
