

Please Join Us for an Open House

Tennessee Gas Pipeline Company 300 Line Expansion Project

Tennessee proposes to expand the capacity of its existing underground natural gas pipeline system by adding a 30-inch pipeline adjacent to the existing pipeline to support the growing demand for clean, natural gas. Also, in certain areas, Tennessee proposes to modify an existing station to meet the compression needs of the Project.

The Open House will provide information describing the location of the new pipeline, the permitting process the Project is undergoing, construction techniques and practices, and how Tennessee will continue to protect the public and the environment.

Please join the project team at:

West Milford Township High School
67 Highlander Drive
West Milford, NJ 07480

Wednesday, January 7, 2009

6:00 - 8:00 p.m.
