

Learn about Green Lawn and Garden Care for Homeowners

Are you concerned about the use of pesticides, herbicides and fertilizers?
Do you want to keep your yard, lawn and garden clean, safe and green?
Do you want to protect streams and lakes from unnecessary non-source pollutants?
Do you want to keep your property and your family safe from mosquitos and ticks?
What questions should you ask if hiring a landscaper or lawn care company?
Do you know about Integrated Pest Management (IPM)? Do you know about soil testing kits?

For the answers to these questions and more, join us for a free lively educational program on **Monday March 16th at The Township of West Milford Town Hall, 1480 Union Valley Road, West Milford at 7PM. This program is co-sponsored by Sustainable West Milford and the West Milford Lakes Committee.**

Our panel will include Dr. Amy Rowe, Rutgers Passaic County Co-Op Extension, Environmental and Resource Management Agent, Joe Pezzillo, Biologist and Michelle Newman, Senior Environmental Health Specialist.

This is part of Sustainable West Milford's free educational series held the third Monday of every month

For more information on this upcoming program and future presentations in the SWM series, please call 973-723-0186
