Re: Passaic County Brownfields Commission

Dear Ms. Hoffman:

We are in receipt of your correspondence with regard to the above referenced Commission. Unfortunately, no one from this office is able to attend your meeting this afternoon. However, the Township is interested in determining the properties within West Milford that may qualify under the County Brownfields Commission. In that regard, would you please forward to my office a list of any West Milford properties that the Commission may have. Also, if you could provide us with the agencies and contacts within those agencies concerning brownfield sites, we would be interested in contacting those agencies with regard to properties in West Milford. Any information in this regard that you could provide to us would be appreciated.

Very truly yours,

William H. Drew, P.P.  
Planning Director
