~ Ordinance 2024 - 016 ~

ORDINANCE OF THE TOWNSHIP OF WEST MILFORD, COUNTY OF PASSAIC, STATE OF NEW JERSEY, AMENDING CHAPTER 371 "TREE REMOVAL" WITHIN THE CODE OF THE TOWNSHIP OF WEST MILFORD

WHEREAS, the Township of West Milford is located entirely within the Highlands Preservation Area and considered an existing Tier A municipality under the enhanced regulations of the Tier A Municipal Stormwater General Permit (R9) by the New Jersey Department of Environmental Protection according to N.J.A.C. – 7:14A, Municipal Stormwater General Permit; and

WHEREAS, the enhanced regulations require municipal review and update to certain existing ordinances to maintain compliance, including regulations for tree removal; and

WHEREAS, the Mayor and Township Council have reviewed said revisions and believe that the changes are in the public interest and required by the NJDEP regulations.

NOW THEREFORE BE IT ORDAINED, by the Township Council of the Township of West Milford, County of Passaic, State of New Jersey, that the Chapter 371 Tree Removal of the Township of West Milford shall be amended as follows:

SECTION 1. Chapter 371 "Tree Removal" is amended to read as follows:

§ 371-1 Findings; purpose.

The purpose of this chapter is to protect and preserve the forests and neighborhood trees of West Milford from indiscriminate destruction, disturbance or removal, to provide protection of the streams and lakes from damage caused by tree loss, and to provide for the protection of water quality. The Township Council does herein decide and find that the uncontrolled destruction, removal and cutting of trees upon lots and tracts within the Township has resulted in creating increased municipal costs for drainage control and has further caused increased soil erosion and stream pollution, decreased the fertility of soil, increased dust which has further deteriorated property values and has further rendered land unfit and unsuitable for its most appropriate uses and has caused deterioration in the value of improved and unimproved real estate within the Township with a resulting adverse effect upon the health, safety and general well-being of the inhabitants. The aforesaid findings have caused the passage of this chapter to regulate and control the indiscriminate and excessive cutting of trees in the Township.

§ 371-2 Regulation of tree removal; compliance required.

It has been determined, therefore, that no person shall cut or remove any tree upon any lands within the Township, unless such action accomplishes a useful purpose and is done in accordance with the regulations and provisions of this chapter.

§ 371-3 Definitions.

For the purpose of this ordinance, the following terms, phrases, words and their derivations shall have the meaning stated herein unless their use in the text of this ordinance demonstrates a different meaning. All definitions herein contained shall be considered in conformance with those set forth in the Zoning Ordinance of the Township of West Milford, N.J., 1969, and as amended, and as in Chapter 500 of the Code of the Township of West Milford, with the following additions:

- A. Applicant - refers to any person, organization or entity who applies for approval to remove trees regulated under this ordinance.

- B. Diameter – means the diameter of the trunk of a tree measured at a point four and a half feet above ground level from the uphill side of the tree (Diameter Breast Height, "DBH"). If there is uncertainty as to the measurement of the diameter of a tree, the diameter shall be conclusively presumed to be the circumference of the tree in inches divided by 3.1416 and rounded to the nearest inch. In the event a tree is removed, the diameter shall be that of the remaining stump if less than four and one-half feet remain. In the event a tree contains more than one trunk at less than four and one-half feet above the ground, the diameter of each trunk shall be summed together to determine the diameter of the tree.
- C. Immature Tree – Shall mean any tree having a diameter less than six inches. Further, an immature tree shall not meet the definition of "Tree".
- D. Forest Management Plan – means a plan which establishes best conservation and management practices and has been reviewed and approved by the NJDEP New Jersey Forest Service. Nothing in this chapter is intended to conflict with or supersede the provisions of an approved Forest Management Plan if work is within compliance of the approved plan.
- E. Nuisance Tree – refers to any tree, or limb thereof, that has an infectious or insect- inflicted disease; is dead or dying; obstructs the view of traffic signs or the free passage of pedestrians or vehicles; is causing obvious damage to structures or threatens public health, safety and welfare; negatively impacts municipal, private or semi-private infrastructure systems; or negatively impacts municipal, private or semi-private stormwater systems.
- F. Rare, Historic or Tree of Significance – any tree that is recognized by the municipal governing body, the State, or a local historical organization as being of significance due to its age, size, unique value, rarity, or its aesthetic, ecological or historic value.
- G. Replacement Tree – A tree proposed as a replacement for a qualified tree removed under a permit.
- H. Township Forester – The duly designated representative or duly appointed officer of the Township given the authority to enforce the provisions of this chapter. If absent, the Zoning Officer, Township Engineer, Construction Official, Director of Planning or their authorized agent(s) may perform the administrative duties as it pertains for permit processing.
- I. Tree – Any living coniferous or deciduous tree having a trunk of a diameter greater than ~~(four)~~ or equal to six (6) inches. Nothing in this chapter is intended to conflict with or supersede the provisions of the Soil Erosion and Sediment Control Act of the State of New Jersey, Chapter 251 of the Public Laws of New Jersey. See N.J.S.A. 4:24-39 et seq.
- J. Tree Removal – means to kill or cause irreparable damage that leads to the decline and/or death of a tree. Removal does not include responsible pruning and tree maintenance. When applicable, removal of trees shall be governed by a variety of New Jersey Department of Environmental Protection regulations, including those that are promulgated under the Freshwater Wetlands Protection Act Rules (N.J.A.C. 7:7A), the Flood Hazard Control Act Rules (N.J.A.C. 7:13) and the Highlands Water Protection and Planning Act Rules (N.J.A.C. 7:38).

§ 371-4 Permit required.

- A. Application. Any person desiring to destroy, cut or remove any such tree which is not accepted under terms of subsection 371-3 and 371-8 shall apply to the Township forester for a permit to remove such tree(s). Permits shall be required for removal of more than five (5) trees per acre per calendar year, not to exceed fifteen (15) trees per lot annually. Lot area shall be rounded up to one (1) acre for lots less than 1.000 acre and subsequently rounded up to the nearest one-fifth (0.2) acre for the purposes of calculating tree removal quantity at a rate of one (1) tree per one-fifth (0.2) acre thereafter. A separate application shall be required for each lot.
- B. Information.
 - 1. The applicant shall identify by block and lot the land upon which the tree(s) is located and shall disclose the name and address of the owner, tenant or duly authorized agent of such owner or tenant, the entity performing tree removal with contact information, and the applicant shall also identify by copy of a survey or other means the location of the tree(s) sought to be cut, removed or destroyed. At the discretion of the Township Forester, an inspection of the site where a removal of trees is proposed may be conducted prior to and/or after the removal is completed. Prior to an inspection, the Township Forester shall have the right to request the trees proposed for removal be marked in a temporary manner for identification.

2. A tree removal permit, if required, shall be obtained prior to the approval of all minor and major subdivisions, site plans, building applications and certificates of occupancy on a map which shall include the following:
